## DETAILED ACTION

### *Allowable Subject Matter*

Claims 2-4 and 6-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 6, 23, 24, and 30 are allowed, having been rewritten in independent form including all of the limitations of the base claim and any intervening claims, for reasons as indicated in the Office Action mailed on 11/15/05.

Regarding claims 6, 23, and 25, Tasaka teaches a specular metal support as the transitional substrate in the form of a belt or drum. The prior art fails to disclose or suggest a transitional substrate that is formed of PET, a polymer solution, or that is extruded in combination with the proposed method steps of manufacturing the optical compensator.

Regarding claim 30, the prior art fails to disclose or suggest the compensator constructed from the proposed method steps of claims 1 and 30 in which transitional substrates are removed from compound compensation films in combination with the other proposed method steps of manufacturing the optical compensator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
